RE: WC Docket No. 02-237 (Ex Parte Meeting)

Dear Ms. Salas:

On Tuesday September 10, 2002, Mike Fay, Sr. Network Engineer for Network Access Solutions, and Don Sussman, Vice President of Carrier Relations/Regulatory Affairs for Network Access Solutions, met with FCC staff to discuss the negative impact on CLECs such as NAS if Verizon discontinues provision of FCC physical collocation services as it has proposed in its application in the above docket. The enclosed tables were provided to staff to illustrate the financial harm that would result to CLECs such as NAS if Verizon's application were approved as currently proposed.

In accordance with FCC Rule 1.1206(b), I am enclosing the original and one copy of this letter for filing, and I also am sending a copy by first-class mail to each FCC staff member listed below, which includes all FCC staff personnel who attended the meeting.

Shice ely,

Don Sussman
